

130 x 100 mm

This technical drawing shows a rectangular plate with a width of 130 mm and a height of 100 mm. A triangular cutout is located at the bottom center, with its base along the bottom edge and its apex pointing upwards. The drawing includes a horizontal dashed line representing the cutout's base, a vertical dashed line for the centerline, and diagonal dashed lines for the cutout's sides. The plate is positioned in the second column of a four-column grid.

130 x 125 mm

This technical drawing shows a rectangular plate with a width of 130 mm and a height of 125 mm. A triangular cutout is located at the bottom center, with its base along the bottom edge and its apex pointing upwards. The drawing includes a horizontal dashed line representing the cutout's base, a vertical dashed line for the centerline, and diagonal dashed lines for the cutout's sides. The plate is positioned in the fourth column of a four-column grid.
